## Reverse Shoulder

XLO, established in 1992, has emerged as a pioneering force in the field of orthopaedic implants. The company is dedicated to enhancing patient outcomes and improving quality of life through innovative solutions in orthopaedics.

With a strong emphasis on quality and precision, **XLO a US FDA, CE, ISO13485:2016, WHO:GMP, ISO 9001:2015 & Indian FDA** has positioned itself as a leader in the design, development, and manufacturing of advanced orthopaedic implants.

XLO offers the most extensive range of Cementless & Cemented Joint Replacement Implants, Trauma Implants, 3d Printed Patient Specific Implants & Instruments along with Bone Cement with a state-of-the-art manufacturing facility located in New Delhi, India. This facility is equipped with advanced technology that supports the production of high-quality orthopaedic implants while adhering to strict regulatory standards.

The company has established a pan-India presence, ensuring that its products are accessible across the country. Furthermore, XLO exports its innovative solutions worldwide, contributing significantly to global healthcare advancements in orthopaedics.

# XL-infinity Reverse Shoulder

- Cancer is a genetic disease caused by growth promoting proto-oncogenes, growth inhibiting tumour suppressor genes and genes regulating cell death or apoptosis. when a cell starts growing in an uncontrolled manner it leads to cancer and this mass of fast growing cells damages normal tissue and bone structure.
- These implants are manufactured within an integrated program, under the aegis of the performing surgeon and XLO - for the structural design, material configuration, dynamics of motion desired, and longevity of the prosthesis for enhancing the stability of decayed bone joints & thereby improve the quality of life of these critical patients.
- XLO- Joint Resection Prostheses are available for the bone anatomies in Titanium & Stainless Steel.
- These implants are both modular and fixed & are manufactured as per surgeons specifications, from case to case.
- XLO offers a wide range of Modular & Customized & Innovative Implants for Joint Resection and Replacement, which are unique in design, composite in structure, provide wide flexibility during surgery, are extremely versatile and offer post operative natural mobility to terminally ill patients suffering from osteosarcoma.
